REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to teach or suggest the claimed invention as a whole including a metering pintle in a casing reciprocable inwardly toward the inlet and outwardly toward the outlet, a cross bar in an extending across said casing adjacent to but spaced outwardly of the inlet, a pressure member resiliently pressing said pintle inwardly against said crossbar when the engine is not running, said pintle being reciprocable outwardly away from said crossbar against the pressure of said pressure member by the flow of the crankcase gases when the engine is running to meter the flow of the crankcase gases, in the context of a positive crankcase ventilation valve for venting crankcase gases from a crankcase of an engine of an automotive vehicle, comprising an elongated valve casing having an inlet at one end adapted to communicate with the crankcase and an outlet at an opposite end adapted to communicate with an engine manifold for the flow of crankcase gases drawn from the crankcase through the valve casing by the engine manifold when the engine is running.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marguerite J. McMahon whose telephone number is 703-308-1956. The examiner can normally be reached on flex.
